Professional Summary

MBA (IIFT) and B.Tech (IIIT) professional with 3+ years across product development, technology, and business strategy. Post-MBA, led requirements definition and end-to-end delivery of AI-native solutions within an enterprise environment.

Work Experience

FactSet Research Systems Inc **Jul 2025 – Present**
Specialist - Real-Time Data Solutions Hyderabad

- Built an AI-native automation tool end-to-end using Claude Code to eliminate manual errors in derivative symbol generation; conceived, developed, and deployed the solution independently with zero engineering dependency
- Defined requirements and curated the knowledge base (SOPs, business rules, data models) for an internal AI-powered knowledge assistant for the Real-Time Data Solutions team; reduced client TAT on content-related queries by 40%
- Built a business case for an API enhancement by documenting systemic gaps across 5+ client workflows; standardised 2 SOPs that reduced client-resolution time by 15%
- Synthesised recurring enterprise-client feedback into structured product recommendations, contributing to 2 roadmap enhancements for high-value institutional accounts

Erusu Consultants Pvt Ltd **Nov 2021 – Jun 2023**
Product Manager | Product Management & Strategy Hyderabad

- Led 0-to-1 product development of Pebble, a fractional real estate investment platform; owned end-to-end product definition including user flows, wireframe validation, field-level UX decisions, and feature prioritisation from concept through beta launch.
- Conducted 50+ customer and stakeholder interviews across real estate professionals, engineering, and design teams; translated qualitative insights into structured functional requirements aligning business and technical priorities.
- Developed a market-entry strategy for the fractional real estate vertical by analysing 5-year price trends across 30+ localities; sized a $500M+ addressable opportunity and presented recommendations to leadership.

Novac Technology Solutions **Jun 2019 – Aug 2020**
Analyst Chennai

- Reduced support ticket overhead by 35% for Shriram Finance by designing Google Dialogflow conversational AI flows, built on analysis of historical chat data to identify and automate high-volume query patterns.

Internships

Raptee Energy Ltd | Strategy & Marketing **Apr 2024 – Jun 2024**

- Designed 10-city Go-To-Market strategy by analysing infrastructure readiness, competitive positioning, and customer sentiment across 30,000+ brand mentions; findings informed launch sequencing across EV adoption clusters.

Swiggy | Marketing Analytics **Aug 2024 – Oct 2024**

- Redesigned the restaurant-partner onboarding funnel using CLTV and conversion metrics; improved acquisition efficiency by 20% and secured 25+ regional restaurant partnerships.
